

INNOVATION

Course Overview

Embark on a transformative journey with our Innovation Short Course and elevate your business to new heights. This course is meticulously designed to instil a deep understanding of innovation fundamentals, empowering participants with the skills and mindset crucial for success in today's dynamic business landscape. As your team delves into the characteristics of an innovator, bridges the gap between theory and practice, and explores the nuances of creating an innovation culture, they will emerge equipped to drive positive change within your organisation. Our focus on divergent thinking techniques and the Kubler-Ross change curve ensures that your team not only grasps the theoretical aspects of innovation but also gains practical skills in problem-solving and navigating change effectively. The financial aspects of innovation, including Investment Readiness Levels and navigating the Valley of Death, provide a holistic perspective that aligns innovation with strategic business goals. By the end of the course, your team will be well-versed in innovation models, ready to stretch their thinking, and positioned as key drivers for sustainability and success in the era of Industry 4.0. Enrol today and witness the immediate impact on your business's capacity for creativity, adaptability, and sustained growth.
